

TECHNOLOGY & TOPICS FOR EDUCATORS - FALL 2021

EDMS 350/550-01 (CRN: 91017/91060)

Tuesday 7:00 p.m. - 9:30 p.m. (Cohen 190)

COURSE DESCRIPTION:

This course will provide teacher licensure candidates with the general professional knowledge and skills that are necessary for success in both K-12 classrooms and the school community. Specifically, students will study:

- 1) technology and computers as they relate to the teaching professional both in the execution of classroom instruction, assessment and professional productivity;
- 2) case law as it relates to teacher liability and professional behavior both in and out of the classroom;
- 3) effective principles of classroom management and discipline;
- 4) general course and lesson planning techniques;
- 5) general principles of student motivation.

JOURNAL REVIEW:

The student will review a current article on technology in the classroom or other appropriate topic (in your licensure field). Follow the required format and submit by posting (linking) the paper on your web site as a PDF file.

WEB PAGE PROJECT (On-Line Portfolio):

All students will construct a personal web site (including components of the *portfolio project*).

LEGAL BRIEF:

The student will write a legal brief on an assigned court case related to education and be involved in a class presentation of the case. Follow the required format and submit by posting (linking) the paper on your web site as a PDF file.

PORTFOLIO PROJECT:

The student will develop a teaching portfolio to be a part of the web page. Specific requirements of the plan will be discussed in class.

PRESENTATION SOFTWARE:

The student will develop short topics to present to the class using presentation software and other technology.

FIELD EXPERIENCE:

Although no field experience is required for this course, previous field experience log sheets in electronic format will be posted on your web site. (<http://www.xavier.edu/education/forms>)

FILM COMPARISON ESSAY:

Essay assignment is to compare and contrast the methods of school improvement at Garfield High School and Eastside High School. Watch the films (1) *Stand and Deliver* and (2) *Lean on Me* to gather your thoughts for the essay. Be sure to comment on the relevancy to current schools.

EVALUATION:

- 1) Since a major portion of the class will involve discussion and participation, **ATTENDANCE IS MANDATORY**. A grade penalty will be assessed for missing class.
- 2) Your final grade will be an equal weighting of your completed web portfolio project, web page, and project presentation/self evaluation.

NOTE:

Please turn off cell phones during class.

BASICS OF WEB PAGE CREATION

- 1) ALWAYS backup your WWW folder to at least two backup locations (like external hard drives or flash drives). The WWW folder is not stored on Xavier's system. If you loose your backup, you will have to start the project over.
- 2) ALWAYS work on your website from the WWW folder from YOUR DESKTOP. In other words, drag the WWW folder from your backup device to the desktop prior to making changes or additions.
- 3) The content of the WWW folder is: (If other files show up, see you instructor immediately)

- ✓ **master web file.web** - is the XARA editor version of your website
- ✓ The Folder **master web file_web_files** contains PDF and other content files for your website
- ✓ The Folder **SlideShows** contains the slide shows for your website. This folder must be manually drag to the 'Z' drive to make your slideshows live.

- 4) To publish (make your website live) when working in Xara
 1. Click on 'file' and select 'Export Website.' Navigate to the 'Z:' drive;
 2. Click EXPORT;
 3. Copy the SLIDESHOWS folder to the 'Z:' drive (if you changed the slideshows);
- 5) VERY IMPORTANT! Don't forget to drag your WWW folder from the desktop back to your backup devices. Be sure to select 'Replace All' if asked. If you do not complete this step you will loose all of the changes made during your work session.

To Burn your website to a DVD or CD

- 1) Double click on the 'My Computer' icon.
- 2) Navigate to your 'Z' drive and select all files and folders.
- 3) Drag the selected files to the CD/DVD drive
- 4) From the resulting screen, be sure to click 'burn' or 'burn to disk.'

BASICS OF VIDEO CREATION

- 1) ALWAYS backup your VIDEO PROJECT folder to at least two backup locations (like external hard drives or flash drives). If you loose your backup, you will have to start the project over.
- 2) ALWAYS work on your video from the VIDEO PROJECT folder from YOUR DESKTOP. In other words, drag the VIDEO PROJECT folder from your backup device to the desktop prior to making changes or additions.
- 3) The content of the VIDEO PROJECT folder is: (If other files show up, see you instructor immediately). Be careful not to import files to the story board that are not in the folders contained in your VIDEO PROJECT folder.

- ✓ **Pictures** - is a folder to hold pictures to be used in your video
 - ✓ **Sound** - is a folder to hold sound and audio files to be used in your video
 - ✓ **Video** - is a folder to hold video files to be used in your video
 - ✓ **My Video.MVP** - is the Video Pro software mapping file to display your video on the story board
- 4) To export your video in a usable format click FILE, select EXPORT MOVIE, and choose the desired format. Be sure to export the move to the desired location.
 - 5) VERY IMPORTANT! Don't forget to drag your VIDEO PROJECT folder from the desktop back to your backup devices. Be sure to select 'Replace All' if asked. If you do not complete this step you will loose all of the changes made during your work session.
 - 6) You will need to compress your video if you are using the video on the web. Use the software product called **HandBrake**. HandBrake is easy to use and the default settings should work well. Be sure to use the BROWSE button to select the place to export the compressed video and check the WEB OPTIMIZED box. Click the green START ENCODE button to complete the compression. Handbrake outputs in MP4 format.
